

Franchising

We understand the many and varied state laws governing relationships between franchisors and franchisees. When necessary to obtain the best business outcome, we will aggressively represent you through trial or arbitration in a variety of disputes, including:

- Intellectual property rights protection including trade names, trademarks, service marks, copyrights and patents
- Modification and termination of business relationships
- Collection, bankruptcy, and insolvency matters

Miller Canfield attorneys are active in many franchise and distribution-related organizations and activities, including the International Franchise Association, the Forum on Franchising of the American Bar Association, and the Section of Antitrust, Franchising and Trade Regulation of the Michigan State Bar. These groups keep us informed on the latest developments in the law, and help us to build relationships with colleagues and industry leaders that often improves the work we do for our clients.
