

## **Eminent Domain**

Miller Canfield has represented a wide variety of clients, including the State of Michigan, municipalities, district libraries, universities, townships and utilities on public takings. The representations have involved challenges to the condemnor's authority, necessity challenges, damage awards, business interruption and loss of going concern claims, regulatory takings and inverse condemnation. We work closely with our Environmental and Regulatory Group to provide extensive trial and appellate experience and have working relationships with the leading expert witnesses in this field.
