RAC Appeals

Miller Canfield is a Recommended RAC Appeals Law Firm

Miller Canfield's health lawyers help hospital, inpatient rehabilitation facilities and physician clients fight losses in Medicare Reimbursement resulting from Recovery Audit Contractors (RACs).

Combining more than 30 years of experience with Medicare reimbursement, the appeals process and mounting RAC audits, Miller Canfield can effectively challenge RAC recoupment.

Knowledgeable independent law firms and internal legal counsel representatives play vital roles in the completion of proactive RAC clinical assessments; and the submission of RAC appeals. Our firm can assist providers in appealing overpayment determinations made by the Centers for Medicare and Medicaid Service.
