

Diversity In the Community

Multicultural Leadership

Miller Canfield has a vested interest and is actively immersed in the communities where we live and serve. We established a committee that convenes with local groups and businesses on a regular basis. Our Multicultural Committee helps community members identify issues and formulate action plans to get results. We strive to be an accessible pillar in the community--a firm that is aware, engaged and supports the efforts of our community members, by giving them a voice for advancement.

"At Miller Canfield, we believe that diversity opens doors and is a catalyst for innovation, change and economic growth."

For years, Miller Canfield lawyers have been active partners within Asian Indian, Middle Eastern, African-American, Pan-Asian and Latino communities. Regular team meetings keep us--and the organizations--educated and connected.

We're proud of our many initiatives, including:

- Sponsoring the start-up of the South Asian Bar Association in southeast Michigan
- Hosting a goals-sharing forum and reception for leaders in Detroit's multi-cultural organizations
- Partnering Miller Canfield's minority attorneys to in-house corporate counsel
- Providing a forum to introduce Detroit's multi-cultural leaders to the new Michigan Market President of Bank of America

Some of great organizations that Miller Canfield supports:
