EXPERIENCE

CONNECTIONS

INSIGHTS

The first and largest AV legal team, representing software companies, mobility providers, OEMs and component suppliers

Headquartered in Detroit and the only law firm member of the Mobility Transformation Center

Counsel on all legal and regulatory aspects of the AV sector, providing practical business advice

**MILLER
CANFIELD**

» EXPERIENCE

Our AV team works with clients worldwide to solve their most pressing legal issues in this game-changing, rapidly evolving industry. Our relevant expertise includes:

OEM/Supplier/Software Provider Contracting

Providing practical legal and business advice to both new entrants and established suppliers in the automotive industry

Safety Standards and Regulations (NHTSA)

Specializing in matters related to automotive safety compliance, regulation, warranty and recall issues

Data Privacy and Ownership

Counseling in the legal issues involving the collection, storage, sale, use, and transfer of such data

Software Licensing and Intellectual Property Rights

Advising on software licensing matters and intellectual property rights.

State and Local Regulation

Navigating the patchwork of state regulations governing AV deployment

Cybersecurity

Identifying vulnerabilities in contractual relationships that can cause IT disruption, theft or damage to software or data, and unauthorized access or manipulation of systems and networks

Infrastructure (V2I)

Counseling on financing V2I infrastructure and monetizing data

International

Specializing in international transactions, regulations, arbitration and litigation
